LET'S GO
AL FRESCO

Never before have we seen such an enthusiasm for the outdoors. Our outdoor spaces have become areas for relaxation, for gathering with friends and family and now for that extension from the home, bringing the home life into the garden with lounge and dining sets, parasols and fire pits that fit the style of the interior in ways we wouldn't have considered before. By bringing in what is our most rounded collections to date, we have been able to bring an array of styles to the garden that echo our enthusiasm and love that we have for our other categories.

While this is a relatively new category for us, we have developed a collection that is unrivalled, offering everything from dining and lounging, to cooking and sun shields. The introduction of our pergolas, perfectly paired with our new screens and firepit tables, bring a new feel our outdoor collection, while further developing on existing collections such as the Vandra to make sure that we have all styles covered. This complete guide of all Outdoor covers everything, making sure you have everything you need to be able to sit back, relax and enjoy those summer months.

MESSINA

New to our outdoor living collection is this stunning, high quality pergola, which is designed to allow you to enjoy your outdoor space for longer. The roof louvres can be tilted, using a handle winder, allowing you to let in the sunshine, or closing them to offer shade and cover from rain. The clever design features a drainage system; the louvres overlap when closed, making the roof watertight, and they incorporate drainage, so water runs from them into the frame and then down the inside of the legs. Slatted side screens in two sizes are available to accompany the pergola, with different options for position, allowing you to place them to suit your own design. To make a complete side, three of the larger screens are needed for the 4m side and three of the smaller screens for the 3m side. The pergola and screens are crafted from aluminium with a contemporary black powder coated finish.
